

Heavy Construction

With Speers' experience and large fleet of heavy equipment, construction jobs are bid on a continuous basis. From highway construction in the 1980's to dam construction in the new millennium, Speers continues to grow in the heavy construction sector.

A fleet of excavators, dozers, loaders, rock trucks, haul trucks and trailers, drills and various other pieces of equipment gives Speers the capability to carry out a wide spectrum of heavy construction jobs. Regardless of the jobs complexity, Speers works with standardized control systems to guarantee all works for quality workmanship.
